

Making a Referring Doctor Inactive

Need to delete or remove an existing referring doctor? Read ahead to find out how we can make them **Inactive**.

1. Click on **Settings**

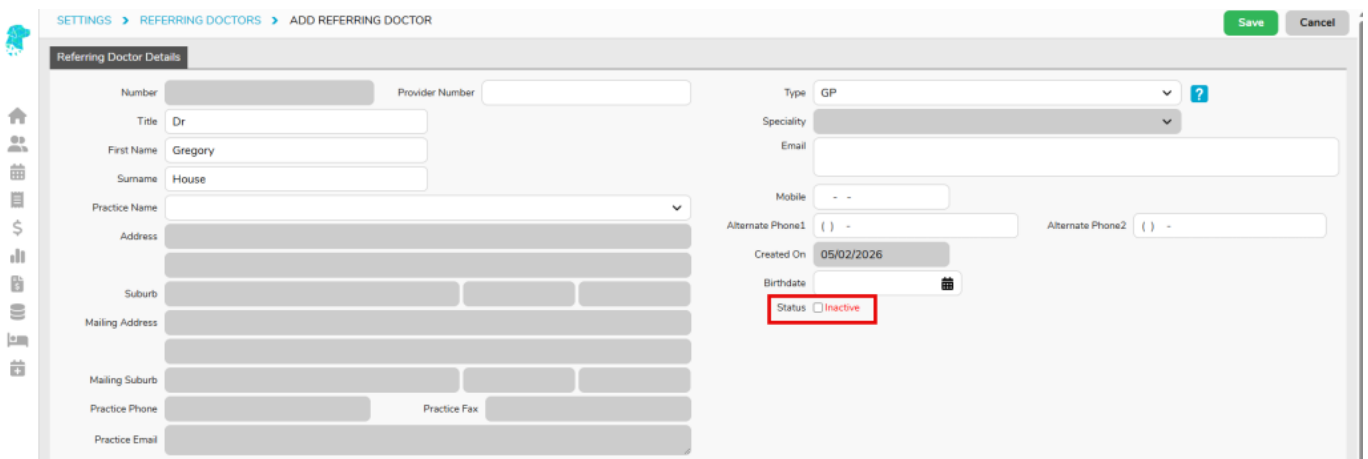

2. Then, **Referring Doctors**

> Referring Doctors

This will display a list of all the referring doctors you currently have.

3. Select the doctor you wish to make **Inactive** by clicking anywhere on their row in the list of doctors.

4. You will now see the details for this doctor, click on **Edit** on the top right-hand corner of the page. Simply untick the **Active** box next to **Status** as shown below.

A screenshot of a web application interface for 'Referring Doctor Details'. The form contains various input fields for personal and professional information. On the right side, there is a 'Status' section with a checkbox labeled 'Inactive' that is currently checked. The checkbox is highlighted with a red rectangular box. The interface includes a breadcrumb trail at the top: 'SETTINGS > REFERRING DOCTORS > ADD REFERRING DOCTOR'. There are 'Save' and 'Cancel' buttons in the top right corner. A sidebar with navigation icons is visible on the left.

Now the doctor has been made **Inactive**; they will not appear when searching for them, and they will not be shown on the list of **Referring Doctors**.

If you wish to view the doctor, or make them **Active** again, simply tick the **Show Inactive** box from the **Referring Doctors** screen.

Show Inactive

You will now be able to see the doctor, and you can edit them as per normal, including making them **Active** again.
