[Obtaining Country of Birth Statistical Data (Hospital)](#)

From time to time, it will be necessary to report on County of Birth statistics.
FYDO makes this extremely easy using the Episode Stats report.

1. Select **Reports** from the main menu
2. Select **Episode Stats**
   ![x]
3. In the **Group By (Primary)** field select **Country of Birth**
4. Select the date range required in the **From** & **To** fields
5. Click **Update**
   ![x]

The report will give you the total number & percentage total of episodes that fall under each category.
