

Online Patient Verification - OPV (Hospital)

Performing an Online Patient Verification check with Medicare & with the health fund helps to ensure the correct patient information is entered into the system & that the Online Eligibility Check (OEC) will be successfully transmitted

1. OPV checks can be performed from the patient information screen, down the bottom left corner, by clicking **Check**
2. Before the OPV is successful the Medicare Number field & the Health Fund Number field will appear the same as all other fields

The screenshot shows the Online Patient Verification (OPV) form. The Medicare Number field (4292-45116-5) and the Health Fund Number field (29/01/2020) are highlighted with a red circle and a red '2', indicating they are not yet verified. The OPV section at the bottom left shows a 'Check' button. The form also includes fields for Name, Address, Date of Birth, and other patient information.

3. Once the information has been successfully verified it will appear with a **green border & tick**, to indicate the information matches the records held by Medicare or the Health Fund
4. If the information isn't able to be verified a visual alert will be displayed, in the top right corner, stating **Verification Issue**
5. Hover over this icon to display a reason for the unsuccessful verification
6. If the reason is as shown, in the below image, the fund wasn't able to be verified as the system was returning the Medicare information. Simply click **Check** again to check the health fund details

Patient Details

Patient # [redacted] File Num [redacted] External ID [redacted]
 Title [redacted] Gender Male [redacted] M T [redacted]
 First Name [redacted] Last Name [redacted] Pref. Name [redacted]
 Address [redacted]

Items

Code	Description	Band	Action
41801	Adenoids, removal of, including any examination of the postnasal space and nasopharynx and the infiltration of local anaesthetic	2	X
41632	Middle ear, insertion of tube for drainage of (including myringotomy) (Anaes.)	2	X
41632	Middle ear, insertion of tube for drainage of (including myringotomy) (Anaes.)	2	X

9. If the patients' name varies from Medicare to the Health fund, utilise the **Alias Name** field under the **Health Fund** section (as shown in image above). In order to successfully verify the details in this instance:

- Enter the patients name, as it is shown on the **Medicare Card**, in the **Patient Details** section as the patients real name
- Enter the patients name, as it is shown on the **Health Fund Card**, in the **Alias**

Name field

c. Run **Check** again

10. In some instances, the OPV will be able to identify the patient, even if the details are slightly incorrect. If this happens the **Verification Issue** icon will become visible & you will be able to hover over it for information regarding the check. Some examples of this would be:
- a. Updating the last digit of the Medicare Card. E.g. From 5 to 6
 - b. Updating the Medicare Reference Number. E.g. From 1 to 4
 - c. Updating the patients' first name. E.g. From Sam to SAMUEL
