

Theatre Screen Improvements

We have made a number of enhancements to the **Theatre Screen** to improve performance and better support a wider range of theatre workflows, including overnight and long-stay facilities.

Improved Performance

We have made a number of enhancements to improve **speed and overall performance**, providing a smoother experience when viewing and recording theatre information.

Additional Date Fields

A **date is now displayed alongside each Theatre Time**, allowing facilities to accurately record procedures that continue across midnight.

FYDO will automatically populate the date when times are entered, to ensure no additional work is required by staff, with users able to adjust the date when required.

This ensures every theatre time is accurately reflected on the date it occurred for each stage of the patient's journey.

The screenshot displays the Theatre Screen interface with the following sections:

- Header:** Appointments / Theatre Screen, Clinic: \$0.00, Hospital: \$656.00, Total: \$656.00, Cancel, Save & Continue, Save & Exit.
- Patient Information:** MRN 102 - DEAN, James, DOB 01/01/1942 (84), Sex Male, File No, Fund BUP, Location Shaes Private Hospital (QLD), Admission No. 1232, EpiNo. 115, Admission Date/Time 10/09/2026 06:00, Discharge Date/Time, Dr/Surgeon EYES, Bright, Speciality Surgeon, Anaesthetist LENNON, John, Procedure Notes Left Cat & IOL, Other Notes.
- Theatre Visits:** Theatre Complete ☐
 - Visit to Theatre: No Unplanned Visit to Theatre
 - ASA Score:
 - Planned Time in Theatre:
 - First: Date: 10/09/2026 0 mins

- Theatre Information:** Ready for Ward, Ready for Pickup, Invoice On Hold, Theatre On Hold, Pathology Nil, Side, Pathology, # of Specimens
- Notes:**

Multiple Theatre Visits and Recovery Times

The Theatre Screen now provides greater flexibility for patients who have **multiple visits to theatre within the same admission**, including the ability to accurately record the associated

recovery times for each visit.

Enhanced Other Services

The **Other Services** section has also been enhanced, allowing additional information to be recorded and providing facilities with greater flexibility in documenting information like the prothesis expiry date if required.
